Interview Log

5:42 PM Interview commenced in Room 429 Holiday Inn, South, Route 183, Irving, Texas

5:44 PM Furnished FD-395 (Advice of Rights) read and signed same. Interview commenced by Bassett. Pearce stated he can not say he ever saw the note. (At time of examination he was a complaint clerk sitting in the reception room.) He thinks there was such a note and believes this was info furnished by Fenner. Best Pearce can recall on an unknown date Fenner asked if Pearce knew who that was. Pearce stated this must have been much later (than the examination). If there was a note P. can not think he saw a note.

On 11/22/75 Pearce was on A/L as son had operation on knee that had scheduled leave Thanksgiving week. After hearing Kennedy shot Pearce called Office from hospital. Pearce soon after left hospital & returned to office. Can not recall his activities on 11/22 & stayed until about 11:00 PM. Also worked Sat. & Sunday. No knowledge of an

to whether Fenner was in office.
At best Pearce can recall after
Ruby shot Oswald Pearce was
assigned to special type case on
Ruby. At some time Fenner told
Pearce Oswald had been to the
Office & left a note, or letter or envelope
He believes this was some weeks
or months after the assassination.
Pearce does not recall that the mentions
contents of note. It was Pearce's
understanding that Oswald was a
source of Hosty and in fact that
Oswald came to Office would not
be unusual as sources & informants
do sometimes come to the Office.
After ~~my~~ going to agent's class
and then returning to Dallas on
assignment May 1974 Fenner
at some time since then made
a further reference to Oswald &
a communication. This was
said by Fenner before several
individuals and not addressed
solely to Pearce. On this occasion
Fenner made some comment that
the Oswald note made some
reference to a bombing. Pearce
said he didn't believe her.
